RICCALL  
RURAL DISTRICT COUNCIL.

---

ANNUAL REPORT

OF THE  
Medical Officer of Health

*For the Year 1925.*

---

SELBY;  
W. J. BELLERBY, PRINTER, BOOKSELLER, &c.

1926.

PUBLIC HEALTH COMMITTEE :

THE FULL COUNCIL.

Councillor WILLIAM DANIEL, (Chairman).

Councillor T. P. JACQUES, (Vice-Chairman).

---

SANITARY INSPECTOR :

ALFRED DOUGLAS.

---

MEDICAL OFFICER OF HEALTH :

W. BERTRAM HILL, M.D., D.P.H.,

Medical Officer of Health for the Combined Public Health District of  
Selby Urban, and Selby, Goole, Tadcaster, and Riccall Rural Districts ;  
Medical Superintendent of the Tadcaster Isolation Hospital, the Selby  
Joint Isolation Hospital, and the Selby, Tadcaster, Hemsworth and  
Pontefract Joint Small-pox Hospital.

## SUMMARY OF GENERAL AND VITAL STATISTICS.

## I.—GENERAL STATISTICS.

Area of Rural District	...	...	...	...	18,073 Acres
Population (1924)	...	...	...	...	5,525
Number of Inhabited Houses (1921)	...	...	...	...	1,181
Number of Separate Occupiers (1921)	...	...	...	...	1,210
Rooms per Person	...	...	...	...	1.13

## NOTE.

The Medical Officer of Health regrets he is unable to supply any details of Sanitary Work, carried out during the past year, owing to the continued ill-health of the Sanitary Inspector.

In the case of urgent matters which have arisen, the Council has received the help of the Sanitary Inspector of an adjacent authority.

## SECTION I.

### NATURAL AND SOCIAL CONDITIONS.

---

**SITUATION.**—The Rural District of Riccall is situated on the Western border of the East Riding of Yorkshire. Its boundary on the West and South-west is formed by the River Ouse, and on the East and South-east by the River Derwent, and in remaining part by the Howden Rural District. On its Northern border it is contiguous to the Rural District of Escrick.

**EXTENT.**—In extent, the District comprises an area of 18,073 acres, containing eight townships, and a total population of 5,332, and it has a gross rateable value of £62,455.

**PHYSICAL FEATURES.**—The District is low-lying and flat throughout, being a part of the Great Plain of York, and its average altitude is only 10 feet above sea level.

**DRAINAGE.**—It is drained on its Western and South-western sides by the River Ouse, and on the East by the River Derwent, which joins the Ouse at Barmby-on-the-Marsh, seven miles south of the Town of Selby.

**GEOLOGY.**—The Geological Strata in this part of the East Riding consist of boulder clay, with beds of sand and gravel overlying the Keuper sandstones.

**SOCIAL FEATURES.**—The population is wholly engaged in agriculture, except in that portion of the township of Barlby on the western border of the District which lies adjacent to the Town of Selby, where large flour mills and oil works have recently been established, which give employment to a considerable body of workmen, some of whom are housed in new property erected in the vicinity of the works, whilst the remainder find accommodation in Selby and the neighbouring villages, and this portion of Barlby is now rapidly acquiring the characteristics of an urban area.

## VITAL STATISTICS.

### POPULATION OF THE RURAL DISTRICT.

Population, 1925	...	...	5,525	
Population, 1921 (Census)	...	...	5,332	} 2,764 males. } 2,568 females.

### BIRTH RATE.

112 births—53 males and 59 females—were registered during the year, furnishing a birth rate of 20·2 per 1,000 population, being ·5 less than the rate for the previous year.

The average rate for the period 1920—1924 is 23·7 per 1,000.

The rate for England and Wales is 18·3 per 1,000.

There were three illegitimate births.

### DEATH RATE.

60 (nett) deaths—40 males and 20 females—were registered, giving a death rate of 10·8 per 1,000 population, which is ·4 in excess of the rate for last year.

The average rate for the period 1920—1924 is 10·7.

The rate for England and Wales is 12·2 per 1,000 population.

### INFANTILE MORTALITY RATE.

#### THE NOTIFICATION OF BIRTHS ACT, 1907-1915.

The above Act is administered by the County Council.

An Infant Welfare Clinic is to be established in the Parish of Barlby during the coming year.

The District Council supplies Literature of an educative character and the leaflets are handed to the parents on the registration of a birth.

6 infants died (the local registers give 7) before reaching the age of one year.

The Infantile Mortality Rate is 53·5 per 1,000 births, which is 16·0 per 1,000 less than the rate for the previous year.

The rate for England and Wales is 75 per 1,000 births.

The average rate for the period 1920—1925 is 81·9 per 1,000 births.

A certain amount of credit must be given to the work carried out at the Infant Clinic in Selby, for this reduced mortality, as during the past five years nursing mothers have regularly attended the Infant Consultations.

Reference to Table IV. shows the age incidence of these infant deaths. Four of these deaths were directly preventable.

## TUBERCULOSIS DEATH RATE.

Rate for 1925	...	...	·9	per 1,000
1924	...	...	1·26	„
Average Rate 1920—1924	...	...	·84	„

## ZYMOTIC DEATH RATE.

Rate for 1925	...	...	·36	per 1,000
1924	...	...	·18	„
Average Rate 1920—1924	...	...	·30	„

## RESPIRATORY DEATH RATE.

Rate for 1925	...	...	2·3	per 1,000
1924	...	...	1·80	„
Average Rate 1920—1924	...	...	1·81	„

## CANCER DEATH RATE.

Rate for 1925	...	...	1·4	per 1,000
1924	...	...	1·26	„
Average Rate 1920—1924	...	...	·97	„

## SECTION II.

### GENERAL PROVISION OF HEALTH SERVICES IN THE RURAL DISTRICT.

#### STAFF OF THE HEALTH DEPARTMENT.

MEDICAL OFFICER OF HEALTH ... W. BERTRAM HILL, M.D., etc.

[Acting for the Selby Combined District.]

SANITARY INSPECTOR: ALFRED DOUGLAS (who is also Highway Surveyor).

#### HOSPITAL ACCOMMODATION.

Patients are admitted to the Selby Joint Isolation Hospital on payment of two guineas per week.

#### PATIENTS ADMITTED DURING THE YEAR.

Scarlet Fever	...	...	...	...	1 case.
---------------	-----	-----	-----	-----	---------

#### SMALL-POX HOSPITAL ACCOMMODATION.

A retaining fee of three guineas per annum is paid to the Selby, Pontefract and Hemsworth Joint Hospital in order to secure accommodation should the necessity arise.

VACCINATION REGULATIONS, 1917.—No persons were vaccinated under this Order during the year.

#### LABORATORY FACILITIES.

All bacteriological work is carried out at the Northern Laboratory, Scarborough, through the East Riding County Council.

Sputum.	Diphtheria.	Enteric.	Water.
17	4	5	1

DIPHTHERIA ANTITOXIN is supplied by the District Council.

#### ADMINISTRATION OF LOCAL OR ADOPTIVE ACTS.

Urban Powers for each Parish under Secs. 42, 44, and 157, P.H.A. 1875.  
Public Health Act 1890, Sec. 23.

Infectious Diseases Prevention Act 1890.

P.H.A. 1890, Secs. 16—19	...	...	...	...	Whole District.
--------------------------	-----	-----	-----	-----	-----------------

P.H.A. 1907, Secs. 39—42	...	...	...	...	Parish of Barlby.
--------------------------	-----	-----	-----	-----	-------------------

„	„	65—66	...	...	...	Whole District.
---	---	-------	-----	-----	-----	-----------------

Byelaws for New Streets and Buildings	{	Parish of Barlby	...	1916.
		7 Parishes	...	1915.

Regulations under the Dairies and Cowsheds Order, 1885	...	1923.
--	-----	-------

Public Health Act 1875, Sec. 112	{	Parishes of Barlby, Kelfield, Riccall.
----------------------------------	---	--

Public Health Act 1907, Sec. 51	{	...	...	...	March, 1926.
---------------------------------	---	-----	-----	-----	--------------

The District Council proposes to adopt Byelaws for the due regulation of those Offensive Trades contained in Section 112, P.H.A. 1875; and to declare the trades of Fish Frying and Gut Scraping to be offensive under Sec. 51, P.H.A. 1907.

Byelaws for Slaughter Houses	...	...	...	...	...	1925.
------------------------------	-----	-----	-----	-----	-----	-------

#### MIDWIVES, SCHOOL NURSES, HEALTH VISITORS.

There are no Midwives or Health Visitors resident within the Rural Area.

## SECTION III.

### SANITARY CIRCUMSTANCES OF THE AREA.

#### WATER SUPPLY.

The Parishes of Barlby and Osgodby are supplied with a piped water-supply—through the mains of the Selby Urban District Council, which pass across the bed of the River Ouse.

The Medical Officer of Health is at present engaged in an investigation into the water-supply of the Village of Riccall, and a Special Report will be laid before the Council in the near future.

#### DRAINAGE AND SEWERAGE.

“New” Barlby is the only part of the District which has a system of Sewerage and Sewage Disposal Works. The System is a combined one, the sewers also receiving the surface water, and it is designed to provide for a population of 5,000.

The remaining villages drain to land drains.

The common form of Sanitary Convenience is the “Privy” Midden, with the exception of “New” Barlby, in which the majority of the houses are supplied with Water Closets.

#### SCAVENGING.

PARISH OF BARLBY.—Scavenging is carried out by the District Council, and Ashpits and Refuse Bins are emptied weekly.

#### UNSATISFACTORY CONDITIONS WHICH SHOULD RECEIVE THE ATTENTION OF THE COUNCIL.

- (1) The conversion of the Box Closets and Privies in New Barlby to a Water Carriage System.
- (2) The unsatisfactory condition of several of the streets in Barlby.
- (3) The Water-Supply of two of the streets in New Barlby. These two streets are at present supplied from two Pumps, and many of the houses have not an adequate supply.

Sec. 62, P.H.A. 1875, gives the Local Authority full power to acquire an adequate Supply of Water to each house.

### SANITARY INSPECTION OF THE DISTRICT.

#### FACTORY AND WORKSHOPS ACT, 1901.

There are 7 Factories in the District.

#### WORKSHOPS.

Blacksmiths	...	...	6.	Cycle Repairs	...	...	1.
Joiners	...	...	7.	Boot and Shoe	...	...	2.
Cooperage	...	...	1.				

HOUSING.

TOTAL NUMBER OF HOUSES IN THE DISTRICT.

Parish.	Number of Houses up to £26 per annum Rental.	Number of Houses above £26 per annum Rental.	Total Houses.
Osgodby .. ..	53	3	56
South Duffield .. ..	44	2	46
Cliffe-cum-Lund .. ..	143	5	148
Barlby .. ..	633	5	638
North Duffield .. ..	53	23	76
Kelfield .. ..	75	5	80
Skipwith .. ..	50	4	54
Riccall .. ..	198	9	207
	1249	56	1305

From the above Table it will be seen that the Council is responsible for the systematic inspection of 1,249 houses, and by the terms of the Housing Act 1925, the result of the inspections must be duly recorded and laid before the District Council.

Total Houses built in the District during the Years 1920—1925.	Built by the District Council.	Built by Private Persons with the aid of Public Money.	Built by Private Persons.
156	32	94	30

TOWN PLANNING.—The District Council is engaged in the preparation of a Town Planning Scheme, which will embrace the whole of the Rural Area. The Architect has been appointed and the necessary Plans are in course of preparation.

GENERAL HOUSING CONDITIONS IN THE DISTRICT.--Under the Housing Act 1919, the Council decided on a Building Scheme of 63 houses, viz.:—

Old Barlby ... ..	12	North Duffield ... ..	5
Riccall ... ..	20	South Duffield ... ..	4
Kelfield ... ..	4	Osgodly ... ..	6
Skipwith ... ..	6	Cliffe ... ..	6

The actual number of houses erected has been 32, viz.—

Riccall ... ..	18
Osgodby ... ..	6
South Duffield ... ..	4
Kelfield ... ..	4

The 32 houses erected by the Council have to some extent relieved the demand for houses in the Rural Area, but it may safely be said that they have not to any real extent relieved the housing condition of the true bona-fide village inhabitant. The whole question is one of finance because the agricultural worker is quite unable to pay the rent of houses built under present day costs. There is a demand for a cottage which can be let at a rental not exceeding five shillings per week.

Owing to circumstances which to some extent have been beyond the control of the Council, little or no Housing Inspection has been carried out during the past two years. Much however can and should be done toward making existing cottage property more healthy and sanitary. Many of the repairs which are necessary are not of an extensive nature and consist of such items as

- a.* Paving of Yards.
- b.* Repair of Fall Pipes and Spouting.
- c.* Pointing of Walls, etc.

I must advise the Council that it is necessary this work should be carried out as soon as possible, in the interests of the health of the people.

## SECTION IV.

### INSPECTION AND SUPERVISION OF FOOD.

#### SLAUGHTER HOUSES.

Byelaws for the regulation of these premises have been adopted.

			1920.		Jan., 1925.		Dec., 1925.
Registered	...	...	5	...	4	...	4
Licensed	...	...	—	...	—	...	—

#### BUTCHERS' SHOPS.

With glass windows ... 4      With open windows ... Nil

The Slaughter-houses and Butcher's Shop have all been inspected personally by the Medical Officer of Health. They were all kept in a cleanly condition.

THE PUBLIC HEALTH (MEAT) REGULATIONS 1924.—These Regulations came into force on 1st January, 1925. They provide for;—

1. The systematic inspection of animals at the time of slaughter.
2. The supervision of stalls from which meat is sold.
3. The condition under which meat is handled and transported.
4. The marking of meat after competent inspection.

The Regulations have been fully explained to the Council by the Medical Officer of Health.

It is the custom in the Rural District for butchers to slaughter on fixed days, and notice of such times of slaughter have been given by the occupiers of the four slaughter-houses.

#### MILK SUPPLY.

Regulations under the Dairies Order 1885 have been adopted by the Council.

1. Cowkeepers	...	...	...	...	...	...	19
2. Cow-keepers, also Milk-sellers	...	...	...	...	...	...	19
3. Milk Retailers (not Cow-keepers)	{ with premises ... 2 ) without premises ... 2 }						4
4. Register No. 1 (entries)	...	...	...	...	...	...	21
5. Register No. 2 (entries)	...	...	...	...	...	...	1

THE MILK AND DAIRIES CONSOLIDATION ACT.—This Act which came into force on the 1st September, 1925, provides inter-alia for

- (a) The Examination of Cattle in Dairies.
- (b) The Examination of Milk Samples.
- (c) The labelling of Cans and Receptacles with the Vendor's name and address.

The terms of the Act have been fully explained to the Council by the Medical Officer of Health, and the District Council has sanctioned the employment, by the Medical Officer of Health, of a Veterinary Surgeon to examine cattle in dairies. Instructions have also been given for the bacteriological examination of milk for the presence of Tubercle Bacilli. It is hoped that by the end of the year good progress will have been made towards the detection of milk which is likely to cause tuberculous disease.

#### BAKEHOUSES.

One ... New Barlby—is of modern construction,

## SECTION V.

### PREVALENCE OF AND CONTROL OVER INFECTIOUS DISEASE.

It will be seen from Table II. that only one case of Infectious Disease was notified during the year.

#### TUBERCULOSIS.

6 cases of Pulmonary and 1 of Non-Pulmonary Tuberculosis were notified, as compared with 7 of Pulmonary and 4 of Non-Pulmonary last year.

5 cases received sanatorium treatment.

Under the Public Health (Tuberculosis) Regulations, 1924, the following return was made up to 31st December, 1925 :—

Number of cases of Tuberculosis } remaining on the Registers ... }	Pulmonary.		Non-Pulmonary.	
	Male.	Female.	Male.	Female.
	10	10	6	3

There were, therefore, known to be in the district at the close of the year, 29 cases of Tuberculosis—16 males and 13 females.

THE PUBLIC HEALTH (PREVENTION OF TUBERCULOSIS) REGULATIONS, 1925.—The object of these Regulations is to prevent, so far as possible, any person who is aware that he is suffering from Tuberculosis of the respiratory tract from entering upon or continuing in any employment or occupation in connection with a dairy which would involve the milking of cows, the treatment of milk, or the handling of vessels used for containing milk.

No action has been called for under these Regulations during the year.

Two deaths were certified as being due to Tuberculosis of cases which had not been previously notified under the Regulations, 1912.

#### PUBLIC HEALTH (PNEUMONIA) REGULATIONS, 1919.

Primary Pneumonia ... 3 cases only were notified.

#### SCHOOL CLOSURES FOR EPIDEMIC SICKNESS.

Barlby Bridge School	... Feb. 23—	... Measles.
Skipwith Church School	... Feb. 19—13th Mar.	... Measles.
